

THANKS TO OUR CUSTOMERS, WE'RE #1

In its latest **Worldwide Semi-Annual Software Tracker**, 1H 2016, industry analyst firm International Data Corp. (IDC) recognizes SolarWinds as the global market share leader in network management software. Customers who are new to SolarWinds, and those who have been choosing us year after year for their network management needs, have determined that we are the worldwide market leader.

TOP 5 NETWORK MANAGEMENT SOFTWARE VENDORS

Market share measured by vendor revenue

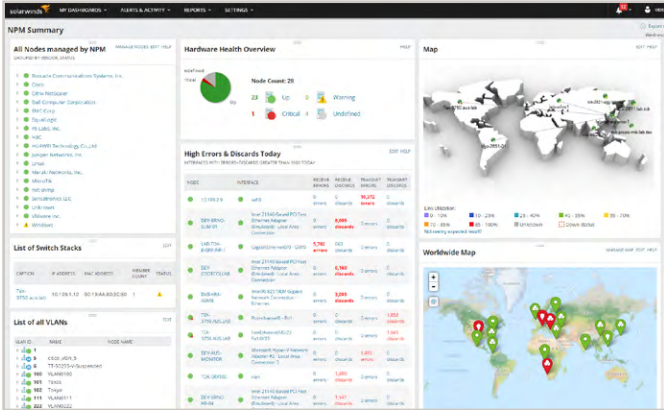

SOURCE: IDC WORLDWIDE SEMIANNUAL SOFTWARE TRACKER, 1H 2016
Vendors not listed in this graphic are collectively included in an "Others" category that represents 39% of the Network Management Software market

According to the IDC Worldwide Semi-Annual Software Tracker 1H 2016 release, SolarWinds leads the network management software market with a more than 20 percent share of total market revenue for the first half of 2016. Strong demand for its network management products fueled 14.2 percent year-over-year revenue growth during the same period.

"SolarWinds was founded on the premise that IT professionals desire IT management software that is more powerful, yet simpler to buy and much easier to use. IDC's recognition of SolarWinds' market share leadership validates that core value proposition inherent to all of our solutions, while also underscoring the incredible adoption rate we continue to see among customers in organizations of all sizes, in all parts of the world."

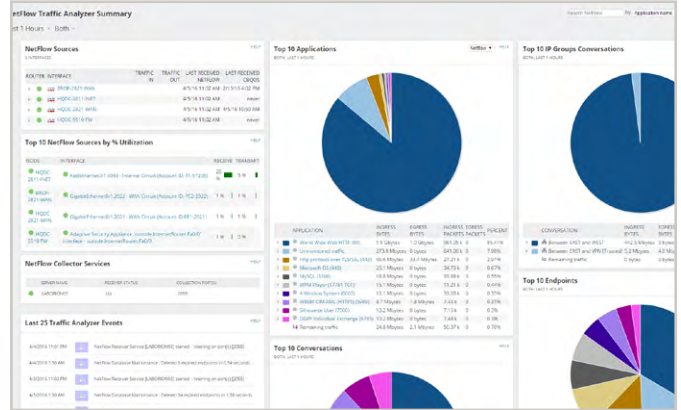

Kevin B. Thompson

President and Chief Executive Officer, SolarWinds

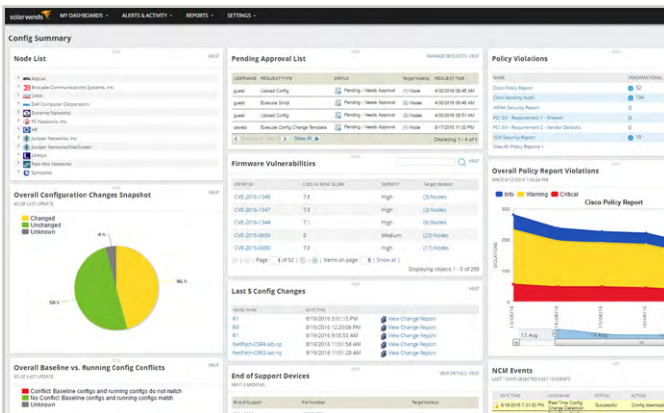

Network Performance Monitor

Reduce network outages with affordable, easy-to-use network monitoring software
